Data Analysis · SQL · Power BI · Python · ETL · DAX · MySQL · Machine Learning · Data Visualization

PROFESSIONAL SUMMARY

Final-year B.Tech student in Artificial Intelligence & Data Science with hands-on experience in Data Analysis, SQL, and Power BI. Familiar with Python and MySQL for data processing and querying, with working knowledge of ETL pipelines, Star Schema modeling, and DAX. Completed two end-to-end data analysis projects and coordinated a team for an offline AI voice assistant as a final-year capstone. Actively seeking a Data Analyst internship or full-time opportunity to apply analytical skills and grow in a data-driven environment.

TECHNICAL SKILLS

Data Analysis & BI: Power BI (DAX, Power Query, Star Schema, ETL), Microsoft Excel, SQL

Programming & Query: Python (Pandas, Scikit-Learn), SQL, MySQL, MongoDB

AI & Machine Learning: Machine Learning, NLU/NLP, Faster-Whisper, TTS, Prompt Engineering

Web & Tools: HTML, CSS, JavaScript, Git, GitHub, VS Code, Anaconda

INTERNSHIPS

Machine Learning Intern

Aug 2024

ABE Group of Companies

Salem, Tamil Nadu

- Applied supervised learning algorithms (classification and regression) using Scikit-Learn, Python, and Pandas.
- Carried out data preprocessing and feature engineering to improve model accuracy and reduce noise.
- Switching to XGBoost boosted predictive accuracy from 74.2% to 87.5% and the F1-Score from 0.59 to 0.84.

MERN Stack Intern

Feb 2025

Livewire – Salem

Salem, Tamil Nadu

- Assembled a full-stack application with secure user authentication using Passport.js and session management.
- Structured full CRUD operations and deployed data flow between the React frontend and MongoDB.
- Constructed responsive UI components with React and integrated them with a Node.js/Express.js backend.

PROJECTS

Smart Banking Engine

github.com/PrasannaV569/Smart-Banking-Ledger-Fraud-Detection-System

MySQL · Database Triggers · Window Functions · Risk Analytics

- Planned a 3-table relational banking schema (Customers, Accounts, Transactions) with cascading foreign keys.
- Engineered a database trigger to prevent overdrafts, blocking all insufficient-fund withdrawals at the database level.
- Established a geo-velocity fraud detection trigger flagging physically-impossible cross-location transactions within 10 minutes.
- Leveraged SQL Window Functions (SUM OVER PARTITION BY) to compute a running ledger balance per account.

Global AI Workforce & Salary Insights Dashboard

Dataset: Kaggle

Power BI · DAX · Power Query (ETL) · Star Schema · Data Modeling

- Produced an enterprise-grade 3-page interactive Power BI report tracking global AI hiring volumes and compensation benchmarks.
- Developed a Star Schema data model (Fact_Postings + 4 dimension tables) with a Many-to-Many skill bridge table.
- Conducted Power Query ETL to split pipe-delimited skill columns into 93 unique normalized skill assets.

- Configured native Field Parameters for dynamic axis switching across 5 dimensions (Job Category, Experience, Industry, etc.).

Gold Price Tracker & Predictor

github.com/PrasannaV569/GoldRatePrediction

Python · Flask · REST API · Machine Learning

- Fetched live gold price data from the Gold API and visualized it on a web dashboard using Python Flask.
- Fitted a predictive ML model on historical gold price datasets to forecast the next trading day's gold rate.
- Test set RMSE: 0.8156 and training set RMSE: 0.7234, indicating strong generalization.

Cortex – Offline AI Voice Assistant | Team Lead

github.com/PrasannaV569/Cortex

Python · Faster-Whisper · NLU · NLP · TTS

- Managed a team to deliver a fully offline AI voice assistant with 100% local execution and minimal CPU/RAM footprint.
- Architected a custom JSON-trained NLU engine for intent classification without any external APIs.
- Speech Recognition Accuracy: 92.7%, validated across 200+ commands in varied acoustic environments.
- NLU Intent Classification Accuracy: 95.1% with 100% trigger rate.
- System Response Latency: 463ms average for a typical short command.

EDUCATION

B.Tech – Artificial Intelligence & Data Science

2022 – 2026

AVS Engineering College, Salem

CGPA: 8.0 / 10 (up to 7th Semester)

HSC (Class XII)

2022

GBHS School, Mecheri

443 / 600 (73.8%)

SSLC (Class X)

2020

GBHS School, Mecheri

378 / 500 (75.6%)

CERTIFICATIONS

- SQL Intermediate – HackerRank
- Python Basic – HackerRank
- Machine Learning Basic – Vodafone Idea Foundation
- DCA (Diploma in Computer Applications) – CCI Computer Education
- Unity Essentials Pathway – Unity Technologies

LANGUAGES

Tamil (Read, Write, Speak) | English (Read, Write, Speak) | Kannada (Speak)
